POWER SUPPLY

CIOKS TC10

TC10 is a member of CIOKS professional range of dedicated multi-output power supplies for effect pedals. The Danish company TC Electronic is very popular with their Nova pedal series for guitar players and TC Helicon VoiceTone series for vocalists. CIOKS TC10 power supply is with its 10 regulated and well filtered DC outlets configured in 8 isolated sections specially designed for musicians who are big fans of these TC boxes and is able to power four of them alongside with standard 9V pedals. Three sections offer 300mA each and the last yields 400mA with voltages 9 and 12V available. The first 4 isolated outlets offering 4x100mA are perfect for standard 9V battery operated pedals.

Features:

- ▶ 10 outlets configured in 8 isolated sections
- ▶ toroidal transformer with additional magnetic field shielding
- ▶ 4 powerful DC sections specially designed for TC Electronic Nova or TC-Helicon VoiceTone pedals
- ▶ short circuit protection of all outlets
- ▶ advanced LED monitoring of each section
- ▶ temperature monitoring
- ▶ 120 or 230V mains voltage operation
- ▶ 16 Flex cables in total included
- ▶ one Split Flex and two Stack Flex for both 18 and 24V pedals also included
- ▶ mounting kit for pedal boards included
- ▶ durable steel enclosure with 2mm thick top

Specifications:

Outlet 1-4: 9V DC / 100mA each
Outlet 5-6: 12V DC / 300mA each
Outlet 7-8: 9 and 12V DC / 300mA
Outlet 9-10: 9 and 12V DC / 400mA

Size: 158x98x35mm (excl. rubber feet)
Weight: 1,1kg

Warranty period: 5 years

More power - more features - more design
