

DC CIOKS POWER SUPPLY

CIOKS DC10

DC10 is a member of CIOKS professional range of dedicated multi-output power supplies for effect pedals. It has 10 regulated and well filtered DC outlets configured in 8 isolated sections. With a total of 1.600mA it's a perfect solution for bigger rigs with pedals only using a DC power source. Its three powerful sections with 400mA each will power pedals with special requirements like those from TC Electronic Nova series, Eventide Factor series, MoogerFoogers, Radial Tonebone or others without the need of custom cables. Selectable with a switch DC10 offers voltages 9, 12 and 15V DC, and combined with one of the included Stack Flex also 18 and 24V DC. The first 4 isolated outlets offering 4x100mA are perfect for standard 9V battery operated pedals.

Features:

- ▶ 10 outlets configured in 8 isolated sections
- ▶ toroidal transformer with additional magnetic field shielding
- ▶ 3 powerful DC sections with 400mA each
- ▶ 15V option for Radial Tonebone pedals
- ▶ short circuit protection of all outlets
- ▶ advanced LED monitoring of each section
- ▶ temperature monitoring
- ▶ 120 or 230V mains voltage operation
- ▶ 16 Flex cables included
- ▶ one Split Flex and two Stack Flex for both 18 and 24V pedals also included
- ▶ mounting kit for pedal boards included
- ▶ durable steel enclosure with 2mm thick top

Specifications:

Outlet 1-4: 9V DC / 100mA each
Outlet 5-6: 9 or 12V DC / 200mA each*
Outlet 7-8: 9 and 12V DC / 400mA
Outlet 9-10: 9 and 12 or 15V DC / 400mA
* can be merged into a 400mA section

Size: 158x98x35mm (excl. rubber feet)
Weight: 1,1kg

Warranty period: 5 years

More power - more features - more design
